# Assembly instructions

1. Insert plugs 7 into all circular holes on the sides of the lower part 3.
2. Place the three parts of the base 3 side by side on the ground with the legs down and connect them together by sliding the adjacent part to the side.
3. Insert the side panels 1 into the holes on the longer sides in the lower parts 3. After inserting, slide them to the side to secure them firmly.
4. Insert the side panels 2 into the holes on the shorter sides in the lower parts 3. Once inserted, slide them to the side to secure them firmly.
5. Insert the connecting parts 5 into the holes in the outer corners, the holes of the connectors are facing up. The edges of the side parts of panels 1 and 2 are inserted into the grooves in parts 5.
6. Connect 2 parts of connectors 5 together to create 4 pairs.
7. Insert the formed pairs of connectors 5 between the inner side panels 1, the holes of the connectors are facing up. The edges of the side parts of the panels 1 are inserted into the grooves in the parts 5.
8. Follow steps 2-7 to create the second box.
9. At the bottom box, connect the two adjacent legs of the inner parts of the base 3 by sliding the connectors 6.
10. Connect both boxes together with the remaining connectors 5, which you connect and slide into each other.
11. Insert the upper caps 8 into all the holes in the connecting parts 5 in the upper box.
12. Inside the lower parts of the bottom 3 for both boxes, insert the inserts 4 with the holes facing upwards.
13. For both boxes, insert cover tapes 9 and 10 into the empty grooves on the upper perimeter of side panels 1 and 2.
14. For both boxes, insert the cover strips 10 into the empty grooves on the shorter edges of the bottom parts.
